Workshop (DLT 2019)

Smart contracts on blockchain: some false myths

Dr. Chantal Bompreszi

Joint International Doctorate in Law, Science and
Technology

February 12th, 2019

6 myths surrounding Blockchain Smart contracts:

- 1) Smart contract: neither 'smart' nor necessarily 'contract'
- 2) Smart contracts is something new?
- 3) No more intermediaries?
- 4) No more breach of contract?
- 5) 'Self-supporting' contracts
- 6) Privacy-enhancing technology

6 myths surrounding Blockchain Smart contracts:
